Profile

Accomplished Technology Architect and Strategist with 5 years of experience specialising in technology strategy, digital transformation, and enterprise architecture across financial services, consumer, life sciences, retail, and manufacturing. Proven track record of shaping multi-year technology strategies and roadmaps, establishing and maturing Enterprise Architecture capabilities, and leading cross-functional teams to deliver complex IT modernisation, M&A, and cloud transformation outcomes.

Strong at translating complex technical detail into clear, actionable insight for senior stakeholders, aligning business and technology priorities, and driving governance, risk mitigation, investment prioritisation, and delivery. Michael has also designed and engineered Deloitte's internal agentic architect platform, with a focus on safe and scalable cloud foundations, architecture governance, and performant, efficient AI agents that support everyday architecture activities.

Skills & Competencies

Technology Strategy & Architecture | Enterprise Architecture & Roadmaps | Digital Transformation & IT Modernisation | AI & Agentic Systems | Agentic Platform Architecture & Engineering | Cloud Platform Foundations & Governance | Architecture Governance | Capability, Application & Integration Modelling | SAP Transformation & Integrations | Technology Operating Models & Demand Management | M&A IT Transformation & PMO | Portfolio Planning & Investment Prioritisation | LeanIX | ArchiMate | Python | TensorFlow | Data Analysis & Visualisation (SQL, PowerBI, Tableau) | GCP / AWS / Firebase | Harness Development | GitHub | qkdb+ | Qiskit | Flutter | Quantum Computing & Development | Agile Ways of Working | Leadership & Stakeholder Management

Experience & Sample Projects

TECHNOLOGY, STRATEGY & TRANSFORMATION MANAGER | DELOITTE | OCT 2021 – PRESENT

Technology Architect and Strategist with experience delivering large-scale digital transformations and technology strategies for global organisations across financial services, consumer, life sciences, retail, and manufacturing. Skilled in developing enterprise architecture roadmaps, establishing and maturing EA capabilities, and shaping and delivering complex system integrations. Experienced in leading cross-functional teams, aligning technology solutions with business objectives, and advising senior stakeholders on investment priorities, governance, risk, and delivery.

ENTERPRISE ARCHITECT | INTERNATIONAL FX BANK | JUN 2026 – PRESENT

Refreshing the technology strategy and defining the architecture and engineering approach for an in-house agentic architecture platform. Established a clear vision and target state while embedding governance, architecture principles, and integration patterns to support a trusted, testable, and enterprise-ready platform.

- Codified guiding architecture principles, the programme architecture governance model, and decision-management practices to accelerate approvals and reduce design rework.
- Updated the programme target architecture vision and approach to achieve MVP deployment in 2026.

IT STRATEGY & EXECUTION | UK BUILDING SOCIETY | FEB 2025 – JUN 2026

Led the development and execution of a major IT transformation programme spanning six workstreams, client and third-party vendors, and more than 90 resources.

- Defined a two-year IT strategy, including pathways, timelines, resource requirements, and costs; developed business cases incorporating financial modelling for internal and third-party resources, licensing, and hardware.
- Delivered key outcomes including a modern cloud platform and enhanced end-user computing capabilities across virtual desktop infrastructure, device management, and asset management; provided architecture assurance and managed Design Authority for three months.
- Defined the 2026–2027 transformation journey, culminating in a £10m+ technology strategy forecasting more than 50% improvement in technology spend across a five-year cost model.
- Supported 2026 delivery through delivery and transformation governance.

TECHNOLOGY & ARCHITECTURE STRATEGIST | GLOBAL MEDTECH | JUN 2024 – JAN 2025

Led the development of a comprehensive five-year Enterprise Technology strategy and roadmap for a leading global MedTech enterprise, integrating solutions across 24 business domains and aligning more than 100 initiatives to strategic goals.

- Facilitated cross-functional workshops with more than 50 stakeholders to align priorities, dependencies, and transformation outcomes.

- Identified quick wins, technical dependencies, and estimated business and technology costs across the initiative portfolio.
- Provided LeanIX and architecture data-modelling advisory, collaborating with technology leadership and C-suite stakeholders to support strategy execution and investment decisions.

ENTERPRISE ARCHITECT | UK RETAILER | NOV 2022 – FEB 2024

Matured the Enterprise Architecture practice and delivered key EA artefacts to support a major digital transformation, including capability models, application landscapes, integration architectures, and technology roadmaps.

- Implemented and maintained an EA tool to support transformation, productivity, and strategic decision-making.
- Provided advisory for domain and technology RFPs, solution designs, and implementations including SAP S/4HANA, personalisation, Order Management Systems, and HR Information Systems.
- Led solution architecture and advisory for critical B2B and POS SAP integrations through design, testing, go-live, and service transition.

Education

- 1ST CLASS HONOURS MPHYS | JUNE 2020 | LOUGHBOROUGH UNIVERSITY

Project: “Neutrino-Lepton Interactions for Quantum Computing”

The project studied the effects neutrino-based qubits would have in a neutrino-lepton quantum gate, deriving integrated cross sections from W and Z boson couplings for each interaction to predict gate outcomes and the probability of success.

- A LEVELS & GCSES | JUNE 2016 | CLAREMONT ACADEMY

Certifications & Courses

- Qiskit Fundamentals
- ArchiMate 3 Foundations
- Google Cloud Platform Associate Cloud Engineer
- LeanIX Certified CTP Practitioner
- Tableau Desktop Certified Professional Certification
- qkdb+ Developer
